

OOP Exam Busters Mock Exam Answers

1. C
2. A ** For pointers to dynamically-allocated (using the keyword `new`) memory, the pointer itself will be on the stack whereas the actual contents will be on the heap. So, h is on the stack and *h is on the heap
3. B ** Read corrections; treat this as an absolute value – if you get -2, it's just to do with how memory is ordered on different systems
4. B
5. C
6. B
7. C ** Read corrections
8. B
9. B
10. D
